

REMARKS

Claims 5-8 and 14 have been cancelled, and claims 1 and 9 have been amended, without prejudice or disclaimer of any previously claimed subject matter, solely to promote prosecution of the application. Applicants reserve the right to prosecute the subject matter of the cancelled claims in one or more continuation or divisional applications. New claims 20-22 have been added. Support for the amendments to the claims and the new claims appears, for example, on pages 7-8 and 11. Thus, claims 1-4, 9-13 and 15-22 are pending.

Attached hereto is a marked-up version of the changes made to the specification and claims, encaptioned "Version With Markings To Show Changes Made".

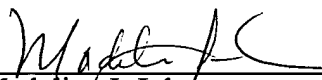

Applicants note that in the parent application, U.S. Serial No. 09/672,109, filed September 27, 2000, the Examiner indicated that claims 10-13 and 15-19 were allowable. Accordingly, allowance of the pending claims as amended herein is respectfully requested.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, Applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing docket no. 374582000120.
